Crypto Peripheral and Artworks

Pubilsh dynamic NFT perihperal for animes, crypto arts from commuity creators.

Physic Artworks

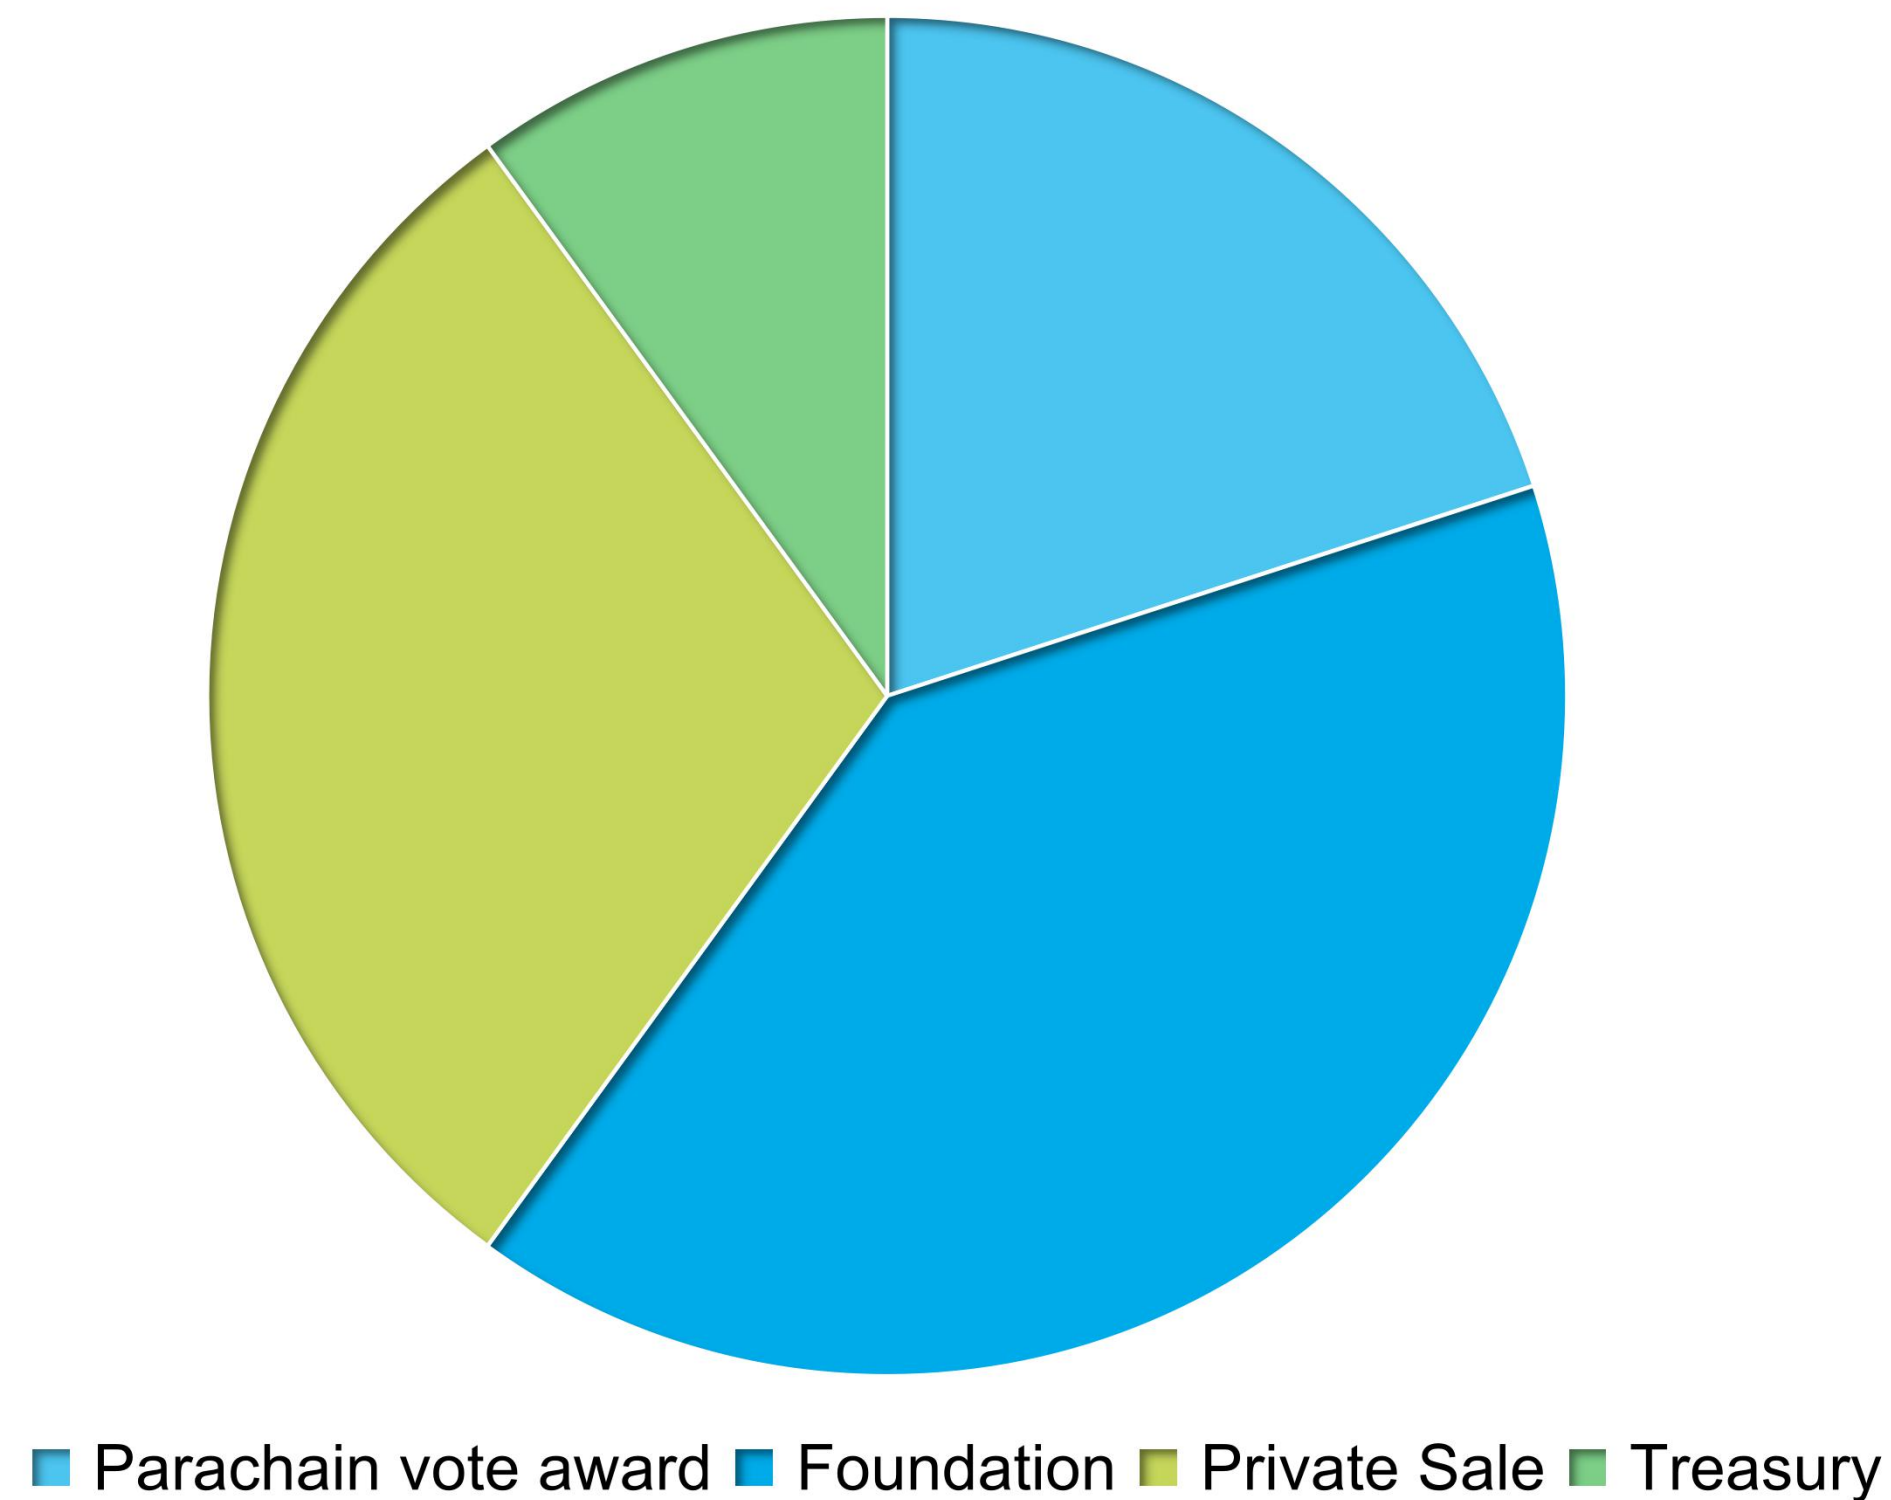

NFT credentials

with RFID Traceability souldtions

About Uni-Arts Token Economy

Unite of Uniqueness

U-arts Initial distribution

U-Art is the major token of Uni-Arts network

Initial amount: 100,000,000

Total hard cap: 250,000,000

Annual inflation rate: 6%

Notes:

- Parachain vote award will be locked until winning from a slot bid
- U-arts belong to foundation will be linearly released within 6 years;
- 30% of the transfer fee and NFT packaging fee are used as node block rewards, and 70% return to the Treasury. After the first Parachain slot expires, part of U-Art balance in the Treasury will be used as rewards for the next renewal slot voting.
- Staking rewards will be distributed based on the amount of U-Art participating in staking.
- Distribution token will be issued on Ethereum and project to main net after launch

About Uni-Arts Token Economy

Unite of Uniqueness

Uni-Arts can run in solo or parachain mode with different staking rewards:

- In solo mode the staking rewards are high with 6% maximum
- In parachain mode the rewards are much lower

This is due to the security of the network is ensured with other Layer 0 or Layer 1 validator instead of its own node when connect to a parachain slot.

The figure above shows the estimated staking rewards in the 1st year under different pledge percentage:

- 25% pledge percentage in solo
- 50% pledge percentage in solo
- 25% pledge percentage in parachain
- 50% pledge percentage in parachain
